

Anscombe's quartet: the same least-squares line, four times over

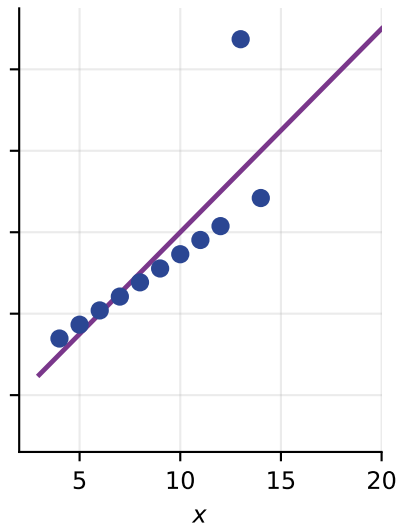

I: $\hat{y} = 3.00 + 0.50x$

II: $\hat{y} = 3.00 + 0.50x$

III: $\hat{y} = 3.00 + 0.50x$

IV: $\hat{y} = 3.00 + 0.50x$
